Program

§1948.51 General.

This subpart sets forth policies and procedures for designation, approval of designation, and making grants for assistance to areas impacted by increased coal and uranium production, processing, or transportation. The Farmers Home Administration (FmHA) will fully consider all A-95 clearinghouse review comments and recommendations in selecting applications for funding. Any processing or servicing activity conducted pursuant to this subpart involving authorized assistance to FmHA employees, members of their families, known close relatives, or business or close personal associates, is subject to the provisions of Subpart D of Part 1900 of this chapter. Applicants for this assistance are required to identify any known relationship or association with an FmHA employee. (Revised 02-04-93, SPECIAL PN.)

§1948.52 Objectives.

The objective of the program is to help areas impacted by coal or uranium development activities by providing assistance for the development of growth management and housing plans and in developing and acquiring sites for housing and public facilities and services.

§1948.66 [Reserved]

§1948.67 Procedure for designation.

(a) Local governments may request the Governor of the State in which they are located to designate an area served by them as an energy impacted area.

(b) The Governor will define the geographic area of a designated area consistent with the nature of the impact and the socio-economic integration of the area.

(c) The Governor may designate an area as an energy impacted area based on the criteria contained in this Subpart.

§1948.68 Criteria for designation.

(a) An area designated by the Governor must have the following characteristics:

(1) During the most recent calendar year, the eligible employment in coal or uranium development activities within the area has increased by eight percent or more from the preceding year, or such

employment (as projected by generally acceptable estimates) will increase by eight percent (of the eligible employment in the year of the designation) or more per year during each of the next three calendar years.

(2) Because of increased employment in coal or uranium development activities, a shortage of housing, inadequate public facilities, or services exists or will exist in the area. Such shortages or inadequacies may be demonstrated by: housing shortage statistics; higher occupancy rates of substandard houses than has historically occurred within the area; an increase (for which data or projected data is available) in eligible employment from the year of the designation of at least 100 workers and one-half of one percent of the designated area's population; or data showing that available public facilities and services in the area are below generally accepted standards due to the increased demand resulting from coal and uranium development activities. (Revised 6-26-81, SPECIAL PN.)

(3) Available State and local financial resources are inadequate to meet the public need for housing or public facilities and services at present or in the next three years. In making this determination the Governor should consider the following:

(i) State revenue increases resulting from coal and uranium development activity based on existing tax laws;

(ii) Federal funds transferred to the State for impact assistance;

(iii) Local revenue increases resulting from coal or uranium development activities based on existing tax laws;

(iv) Other federal financial assistance to which the area may have access;

(v) All other available State and local sources of funding;

(vi) The time during which the resources will be available;

(vii) Existing laws committing increases in State and local revenues and Federal transfers to purposes other than impact assistance; and

(viii) The estimated cost of development based on the best available informed judgment.

(b) Designations submitted to the Secretary of Energy for approval must have the following attached:

(1) A list of all counties and parts of counties covered by the designation;

(2) If the area is smaller than a county, a map showing the boundary of the area and the approximate location of all eligible employment facilities in the area and nearby;

(3) A written justification for the inclusion of an area if the area is smaller than a county.

(4) The level of eligible employment within the designated area for each of the two most recent calendar years. This data should be obtained from a single source for the entire State, if possible; special surveys may be used when the Governor determines that these more accurately reflect employment conditions within the designated area, or in cases where data from other sources for the most recent calendar year is unavailable at the time of designation. Reference should be made to the data sources used if it is a Federal source; if a non-Federal source is used, a copy of the source and a brief description of the procedures used for justification should be included. If projections of eligible employment are to be considered, projections of such employment for the next three years must be attached; identification of data sources and methodology used in developing those projections and a copy of any survey data used should be included.

(c) In areas where the impacted area covers counties or parts of counties located in more than one State, the Governors of the affected States may jointly designate such area and submit the designation to the Secretary of Energy for approval.

(d) After examining these factors and determining that the area meets the criteria of (a) above, the Governor may so certify in a letter bearing his or her signature and submit the letter of certification with all data and estimates upon which the designation is based to the Secretary of Energy for approval.

(e) Each designation submitted should have the name and phone number of a contact person in the Governor's designating office.

(f) An original and one copy of the designation should be submitted to Secretary of Energy, Department of Energy, Mail Stop 8G-031, Forrestal Building, Washington, D. C. 20585.

RD Instruction 1948-B
§1948.68 (Cont.)

(g) Two copies of all designations submitted for approval shall be submitted to the appropriate FmHA State Director. The FmHA State Director shall forward on copy to the Office of Area Development Assistance in the FmHA National Office.

(h) The Governor should designate all areas expected to be considered in FY 1979 allocations of funds before July 1, 1979.

§1948.69 [Reserved]

§1948.70 Designation approval.

Upon receipt of a request for approval of a designation made under this section, the Secretary of Energy shall:

(a) Determine to the best of his ability the consistency of the supporting data submitted along with the designation by the Governor;

(b) Confer with FmHA on approval;

(c) Notify the Governor and the Administrator of FmHA of action taken on each designation within 30 calendar days of the receipt of a request for approval;

(d) Consult with the Governor before the disapproval of any designation; and

(e) Publish a description in the Federal Register of all designated areas approved within 30 days of their approval.

§1948.71 [Reserved]

§1948.72 Industry reports.

Any person regularly engaged in any coal or uranium development activity within an area designated and approved in accordance with this Subpart, shall prepare and transmit a report to the Secretary of Energy, Department of Energy, Mail Stop 8G-031, Forrestal Building, Washington, D. C. 20585 within 90 days after a written request to such person by the Governor of the State in which such area is located.

(a) The report shall contain:

(1) Projected levels of employment in coal or uranium development activities within the approved designated area for the next three calendar years;

(2) The projected number of new jobs to be created in coal or uranium development activities by the person within the approved designated area in each of the following three calendar years;

(3) Current or planned actions of the person in relation to the provision of housing or public facilities for such person's employees in the next three calendar years;

(4) Contracts in force whereby the person intends to provide funds to State government, local governments, and public or private nonprofit organizations for the provision of housing or public facilities for such person's employees; and

(5) The projected quantity of coal or uranium to be produced, processed, or transported by the person in each of the next three years.

(b) The Governor requesting the report will notify the Secretary of Energy of persons from whom reports have been requested.

(c) The Secretary of Energy shall provide a copy of these reports to the Secretary of Agriculture, the appropriate Governor, and the appropriate county or local officials, and make it available for public inspection and copying in the public reading room of the Department of Energy, Room GA152, Forrestal Building, Washington, DC. 20585.

(b) A reasonable effort should be made to modify existing plans for use in meeting the planning requirements of this section.

(c) The Governor shall be responsible for the coordination of planning within a State.

(d) The planning process developed with assistance under this section should begin at the local level and flow upward to the State.

(e) Planning processes developed with assistance under this section should have the maximum possible citizen involvement in the development of plans.

Grant Agreement

Growth Management and Housing Planning

for Approved Designated Energy Impacted Areas

This Agreement is between _____
_____(name),
_____(address),
(Grantee) and the United States of America acting through the Farmers Home Administration (Grantor or FmHA). Grantee has determined to undertake certain growth management and housing planning for energy impacted areas at an estimated cost of \$ _____ and has duly authorized such planning. The Grantor agrees to grant to Grantee a sum not to exceed \$ _____ subject to the terms and conditions established by the Grantor; provided, however, that any grant funds actually advanced and not needed for grant purposes shall be returned immediately to the Grantor. The Grantor may terminate the grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant. In consideration of said grant by Grantor to Grantee, to be made pursuant to Section 601 of the Powerplant and Industrial Fuel Use Act of 1978 (P.L. 95-620) for the purpose only of defraying the planning costs as permitted by applicable Farmers Home Administration regulations:

Part A

Grantor and Grantee agree:

1. This agreement shall be effective when executed by both parties.
2. The scope of work set out below shall be completed prior to _____.
3. Use of grant funds for travel which is determined as being necessary to the program for which the grant is established may be subject to the travel policies of the Grantee institution if they are uniformly applied

regardless of the source of funds in determining the amounts and types of reimbursable travel expenses of Grantee staff and consultants. Where the Grantee institution does not have such specific policies uniformly applied, the Federal Travel Regulations shall apply in determining the amount charged to the grant. Grantee may purchase furniture and office equipment only if specifically approved in the scope of work. Approval will be given only when Grantee demonstrates that purchase is necessary and would result in less cost to the Government in providing Federal-share funds or to the Grantee in providing its contributions. Commercial purchase under these circumstances will be approved only after consideration of Federal supply sources.

(b) Expenses and Purchases Excluded:

(i) In no event shall the Grantee expend or request reimbursement from Federal-share funds for obligations entered into or for costs incurred or accrued prior to the effective date of this grant.

(ii) Funds budgeted under this grant may not be used for entertainment expenses.

(iii) Funds budgeted under this grant may not be used to pay for capital assets, the purchase of real estate or vehicles, improvement and renovation of space, and repair and maintenance of privately-owned vehicles.

(c) Grant funds shall not be used to replace any financial support previously provided or assured from any other source. The Grantee agrees that the general level of expenditure by the Grantee for the benefit of program area and/or program covered by this agreement shall be maintained and not reduced as a result of the Federal share funds received under this grant.

4. (a) In accordance with Treasury Circular 1075, grant funds will be disbursed by the FmHA as cash advances on an as-needed basis not to exceed one advance every 30 days. The financial management system of the recipient organization shall provide for effective control over and accountability for all Federal funds as stated in OMB Circular A-102 revised for State and local governments.

(b) Cash advances to the Grantee shall be limited to the minimum amounts needed and shall be timed to be in accord only with the actual, immediate cash requirements of the Grantee in carrying out the purpose of the planning project.

(c) The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program costs.

(d) Federal funds should be promptly refunded to the FmHA and redrawn when needed if the funds are erroneously drawn in excess of immediate disbursement needs. The only exceptions to the requirement for prompt refunding are when the funds involved:

(i) will be disbursed by the recipient organization within seven calendar days, or

(ii) are less than \$10,000 and will be disbursed within 30 calendar days.

(e) Grantee shall provide satisfactory evidence to FmHA that all officers of Grantee organization authorized to receive and/or disburse Federal funds are covered by such bonding and/or insurance requirements as are normally required by the Grantee.

(f) Grant funds will be placed in a bank account(s). If for any reason grant funds are invested, income earned on such investment shall be identified as interest income on grant funds and forwarded to the Finance Office, FmHA, St. Louis, Missouri, unless the Grantee is a State. "State" includes instrumentalities of a State but not political subdivisions of a State. A State Grantee is not accountable for interest earned on grant funds.

5. The Grantee will submit Performance and Financial reports as indicated below:

(a) As needed, but not more frequently than once every 30 days, an original and 2 copies of Standard Form 270, "Request for Advance or Reimbursement;"

(ii) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

Part B

Grantee agrees:

1. To comply with property management standards established by Attachment N of OMB Circular A-102 for expendable and nonexpendable personal property "Personal property" means property of any kind except real property. It may be tangible--having physical existence--or intangible--having no physical existence, such a patents, inventions, and copyrights. "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of \$300 or more per unit. A Grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above. "Expendable personal property" refers to all tangible personal property other than nonexpendable property. When nonexpendable tangible property is acquired by a Grantee with project funds, title shall not be taken by the Federal Government but shall vest in the Grantee subject to the following conditions:

(a) Right to transfer title. For items of nonexpendable personal property having a unit acquisition cost of \$1,000 or more, FmHA may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(1) The property shall be appropriately identified in the grant or otherwise made known to the Grantee in writing.

(2) FmHA shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If FmHA fails to issue disposition instructions within the 120 calendar day period, the Grantee shall apply the standards of paragraph (4) below.

(3) When FmHA exercises its right to take title, the personal property shall be subject to the provisions for federally owned nonexpendable property discussed in paragraph (4), below.

(4) When title is transferred either to the Federal Government or to a third party and the Grantee is instructed to ship the property elsewhere, the Grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the Grantee participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incurred.

(b) Use of other nontangible expendable property for which the Grantee has title.

(1) The Grantee shall use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When it is no longer needed for the original project or program, the Grantee shall use the property in connection with its other Federally sponsored activities, in the following order of priority:

(a) Activities sponsored by FmHA.

(b) Activities sponsored by other Federal agencies.

(2) Shared use. During the time that nonexpendable personal property is held for use on the project or program for which it was acquired, the Grantee shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by FmHA; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by FmHA. User charges should be considered if appropriate.

(c) Disposition of other nonexpendable property. When the Grantee no longer needs the property as provided in 1(a)(4) above, the property may be used for other activities in accordance with the following standards:

(1) Nonexpendable property with a unit acquisition cost of less than \$1,000. The Grantee may use the property for other activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(2) Nonexpendable personal property with a unit acquisition cost of \$1,000 or more. The Grantee may retain the property for other use provided that compensation is made to FmHA or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the property. If the Grantee has no need for the property and the property has further use value, the Grantee shall request disposition instructions from the original Grantor agency.

FmHA shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported, in accordance with the guidelines of the Federal Property Management Regulations (FPMR), to the General Services Administration by FmHA to determine whether a requirement for the property exists in other Federal agencies. FmHA shall issue instructions to the Grantee no later than 120 days after the Grantee request and the following procedures shall govern:

(a) If so instructed or if disposition instructions are not issued within 120 calendar days after the Grantee's request, the Grantee shall sell the property and reimburse FmHA an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the Grantee shall be permitted to deduct and retain from the Federal share \$100 or ten percent of the proceeds, whichever is greater, for the Grantee's selling and handling expenses.

(b) If the Grantee is instructed to dispose of the property other than as described in 1(a)(4) above, the Grantee shall be reimbursed by FmHA for such costs incurred in its disposition.

(c) Property management standards for nonexpendable property. The Grantee's property management standards for nonexpendable personal property shall include the following procedural requirements:

(1) Property records shall be maintained accurately and shall include:

(a) A description of the property.

(b) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.

- (c) Sources of the property including grant or other agreement number.
 - (d) Whether title vests in the Grantee or the Federal Government.
 - (e) Acquisition date (or date received, if the property was furnished by the Federal Government) and cost.
 - (f) Percentage (at the end of the budget year) of Federal participation in the cost of the project or program for which the property was acquired. (Not applicable to property furnished by the Federal Government.)
 - (g) Location, use and condition of the property and the date the information was reported.
 - (h) Unit acquisition cost.
 - (i) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a Grantee compensates the Federal agency for its share.
- (2) Property owned by the Federal Government must be marked to indicate Federal ownership.
- (3) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The Grantee shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.
- (4) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the Grantee shall promptly notify FmHA.
- (5) Adequate maintenance procedures shall be implemented to keep the property in good condition.
- (6) Where the Grantee is authorized or required to sell the property, proper sales procedures shall be established which would provide for competition to the extent practicable and result in the highest possible return.
- (7) Expendable personal property shall vest in the Grantee upon acquisition. If there is a residual inventory of such property exceeding

\$1,000 in total aggregate fair market value, upon termination or completion of the grant and if the property is not needed for any other Federally sponsored project or program, the Grantee shall retain the property for use on nonfederally sponsored activities, or sell it, but must in either case compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as nonexpendable personal property.

2. To provide Financial Management Systems which will include:

(a) Accurate, current, and complete disclosure of the financial results of each grant. Financial Reporting will be on an accrual basis.

(b) Records which identify adequately the source and application of funds for grant-supported activities. Those records shall contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(c) Effective control over and accountability for all funds, property, and other assets. Grantee shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

(d) Accounting records supported by source documentation.

(e) Provide an audit report prepared in sufficient detail to allow Grantor to determine that funds have been used in compliance with the proposal any applicable laws and regulations and this agreement.

3. To retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three years after closing except that the records shall be retained beyond the three-year period if audit findings have not been resolved. Microfilm copies may be substituted in lieu of original records. The Grantor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the Grantee which are pertinent to the specific grant program for the purpose of making audit, examination, excerpts, and transcripts.

4. To provide information as requested by the Grantor to determine the need for and complete any necessary Environmental Impact Statements.

5. To provide information as requested by the Grantor concerning the Grantee's actions in soliciting citizen participation in the application process, including published notice of public meetings, actual public meetings held, and content of written comments received.

6. To account for and to return to Grantor interest earned on grant funds pending their disbursement for program purposes unless the Grantee is a State. See Part A 4(f) above.

7. Not to encumber, transfer, or dispose of the property or any part thereof, furnished by the Grantor or acquired wholly or in part with Grantor funds without the written consent of the Grantor except as provided in Part B 1.

8. To provide Grantor such periodic reports as it may require of Grantee operations by designated representative of the Grantor.

10. To include in all contracts in excess of \$100,000 a provision for compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970. Violations shall be reported to the Grantor and the Regional Office of the Environmental Protection Agency.

11. That, upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will, to the extent legally permissible, repay to the Grantor forthwith the original principal amount of the grant stated herein above, with interest at the rate of five percentum per annum from the date of the default. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it of previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

12. That no member of Congress shall be admitted to any share or part of this grant or any benefit that may arise therefrom; but this provision shall not be construed to bar as a contractor under the grant a publicly held corporation whose ownership might include a member of Congress.

13. That all non-confidential information resulting from its activities shall be made available to the general public on an equal basis.

14. That the purpose and scope of work for which this grant is made shall not duplicate programs for which monies have been received, are committed, or are applied for from other sources, public and private.

15. That the Grantee shall relinquish any and all copyrights and/or privileges to the materials developed under this grant, such material being the sole property of the Federal Government. In the event anything developed under this grant is published in whole or in part, the material shall contain notice and be identified by language to the following effect: "The material is the result of tax-supported research and as such is not copyrightable. It may be freely reprinted with the customary crediting of the source."

16. That the Grantee shall abide by the policies promulgated in OMB Circular A-102, Attachment 0, which provides standards for use by Grantees in establishing procedures for the procurement of supplies, equipment, and other services with Federal grant funds.

17. To the following termination provisions:

(a) Termination for cause: The Grantor agency may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant. The Grantor agency shall promptly notify the Grantee in writing of the determination and the reasons for the termination, together with the effective date.

(b) Termination for convenience. The Grantor agency or Grantee may terminate grants in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The Grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Grantor agency shall allow full credit to the Grantee for the Federal share of the noncancelable obligations, properly incurred by the Grantee prior to termination.

Part C

That at its sole discretion, Grantor may at any time give any consent, deferment, subordination, release, satisfaction, or termination of any or all of Grantee's grant obligations, with or without valuable consideration, upon such terms and conditions as Grantor may determine to be (a) advisable to further the purposes of the grant or to protect Grantor's financial interest therein, and (b) consistent with both the statutory purposes of the grant and the limitations of the statutory authority under which it is made.

This agreement is subject to current Grantor regulations and any future regulations not inconsistent with the express terms hereof.

Grant Agreement (Public Bodies)

for Site Development and/or Site Acquisition

for Housing and/or Public Facilities and/or Services

THIS AGREEMENT dated _____, 19____, between _____

a public body corporate organized and operating under _____
(Authorizing State Statute)

Herein called "Grantee," and the United States of America acting through the Farmers Home Administration, Department of Agriculture, herein called "Grantor," WITNESSETH:

Grantee has determined to undertake a project for site acquisition and/or site development as follows: _____ (herein called project) to serve the approved designated energy impacted area under its jurisdiction at an estimated cost of \$_____, and has duly authorized the undertaking of such project;

Grantee is able to finance not more than \$_____ of the site acquisition and/or site development costs through revenues, charges, taxes or assessments, or funds otherwise available to Grantee. Said sum has been committed to and by Grantee for such project acquisition and/or site development costs.

The Grantor agrees to grant to Grantee a sum not to exceed \$_____ subject to the terms and conditions established by the Grantor. Provided, however, that the proportionate share of any grant funds actually advanced and not needed for grant purposes shall be returned immediately to the Grantor. The Grantor may terminate the grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant.

In consideration of said grant by Grantor to Grantee, to be made pursuant to Section 601 of the Powerplant and Industrial Fuel Use Act of 1978 (P.L. 95-620) for the purpose only of defraying a part of the acquisition and/or site development costs, as defined by applicable Farmers Home Administration regulations:

Grantee agrees that Grantee will

1. Cause said project to be completed within the total sums available to it, including said grant, in accordance with the project plans and specifications and any necessary modifications thereof prepared by Grantee and approved by Grantor.

2. Permit periodic inspection of the project by a representative of Grantor.

3. Make the housing or public facility or services available to all persons in Grantee's service area without regard to race, color, national origin, religion, sex, marital status, age, physical or mental handicap.

4. Use the real property including land and land improvements for authorized purposes of the grant as long as needed.

a. The Grantee shall obtain approval of the Grantor before using the real property for other purposes when the Grantee determines that the property is no longer for the original purposes.

b. When the real property is no longer needed as provided above, return all real property furnished or purchased wholly with Federal grant funds to the Grantor. In the case of property purchased in part with Federal grant funds, the Grantee may be permitted to take title to the Federal interest therein upon compensating the Federal Government for its fair share of the property. The Federal share of the property shall be the amount computed by applying the percentage of the Federal participation in the total cost of the grant program for which the property was acquired to the current fair market value of the property.

5. Not use grant funds to replace any financial support previously provided or assured from any other source. The Grantee agrees that the general level of expenditure by the Grantee for the benefit of program area and/or program covered by this agreement shall be maintained and not reduced as a result of the Federal share funds received under this grant.

6. Not use grant funds to pay for construction costs of housing or public facilities.

This Grant Agreement covers the following described real property (use continuation sheets as necessary).

7. Abide by the following conditions pertaining to nonexpendable personal property which is furnished by the Grantor or acquired wholly or in part with Grant Funds.

a. The Grantee shall retain such property as long as there is a need for the property to accomplish the purpose of the grant. When there is no longer a need for the property to accomplish the purpose of the grant, the Grantee shall use the property in connection with other Federal grants it has received in the following order of priority.

(1) Other grant of the Grantor needing the property.

(2) Grants of other Federal agencies needing the property.

b. When the Grantee no longer has need for the property in any of its Federal grant programs, the property may be used for its own official activities in accordance with the following standards:

(1) Nonexpendable property with an acquisition cost of less than \$500 and used four years or more. The Grantee may use the property for its own official activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(2) All other nonexpendable property. The Grantee may retain the property for its own use provided that a fair compensation is made to the Grantor. The amount of compensation shall be computed by applying the percentage of the Grantor participation in the grant program to the current fair market value of the property as determined by the Grantor.

c. If the Grantee has no need for the property, disposition shall be made as follows:

(1) Nonexpendable property with an acquisition cost of \$1,000 or less. Except for that property which meets the criteria of b (1) above, the Grantee shall sell the property and reimburse the Grantor an amount which is computed in accordance with (3) below.

(2) Nonexpendable property with an acquisition cost of over \$1,000. The Grantee shall request disposition instructions from Grantor.

(3) If disposition instructions are not issued within 120 days after reporting, the Grantee shall sell the property and reimburse the Grantor an amount which is computed by applying the percentage of the Grantor participation in the grant program to the sales proceeds. Further, the Grantee shall be permitted to retain \$100 or ten percent of the proceeds, whichever is greater, for the Grantee's selling and handling expenses.

d. The Grantee's property management standards for nonexpendable personal property shall also include:

(1) Property records which accurately provide for: a description of the property; manufacturer's serial number or other identification number; acquisition date and cost; sources of the property; and ultimate disposition data including sales price or the method used to determine current fair market value if the Grantee reimburses the Grantor for its share.

(2) A physical inventory of property shall be taken and the result reconciled with the property records at least once every two years to verify the existence, current utilization, and continued need for the property.

(3) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft to the property shall be investigated and full documented.

(4) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(5) Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.

This Grant Agreement covers the following described nonexpendable property (use continuation sheets as necessary).

8. Provide Financial Management Systems which will include:

(a) Accurate, current, and complete disclosure of the financial results of each grant. Financial Reporting will be on an accrual basis.

(b) Records which identify adequately the source and application of funds for grant-supporting activities. Those records shall contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(c) Effective control over and accountability for all funds, property and other assets. Grantees shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

(d) Accounting records supported by source documentation.

9. Microfilm copies may be substituted in lieu of original records. The Grantor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the Grantee governments which are pertinent to the specific grant program for the purpose of making audit, examination, excerpts and transcripts.

10. Provide information as requested by the Grantor to determine the need for and complete any necessary Environmental Impact Statements.

11. Provide an audit report prepared in sufficient detail to allow the Grantor to determine that funds have been used in compliance with the proposal, any applicable laws and regulations and this agreement.

12. Agree to account for and to return to Grantor interest earned on grant funds pending their disbursement for program purposes when the Grantee is a unit of local government. States and agencies of instrumentalities of states shall not be held accountable for interest earned on grant funds pending their disbursement.

13. Not encumber, transfer, or dispose of the property or any part hereof, furnished by the Grantor or acquired wholly or in part with Grantor funds without the written consent of the Grantor except as provided in item 5 above.

14. Provide Grantor with such periodic reports as it may require and permit periodic inspection of its operations by a designated representative of the Grantor.

15. Execute Form RD 400-1, "Equal Opportunity Agreement," Form RD 400-4, "Nondiscrimination Agreement," and any other agreements required by Grantor to implement the civil rights requirements. If any such form has been executed by Grantee as a result of a loan being made to Grantee by Grantor contemporaneously with the making of this grant, another form of the same type need not be executed in connection with this grant.

16. Include in all contracts for construction or repair a provision for compliance with the Copeland "Anti-Kick Back" Act (18 USC 874) as supplemented in Department of Labor regulations (29 CFR, Part 3). The Grantee shall report all suspected or reported violations to the Grantor.

17. In Contracts in excess of \$2,000 and in other contracts in excess of \$2,500 which involve the employment of mechanics or laborers, to include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 USC 327-330) as supplemented by Department of Labor regulations (29 CFR, Part 5).

18. Include in all contracts in excess of \$2,500 a provision for compliance with applicable regulations and standards of the Cost of Living Council in establishing wages and prices. Grantee shall report any violations of such regulation and standards to the Grantor and the local Internal Revenue Service field office.

19. Include in all contracts in excess of \$100,000 a provision for compliance with all applicable standards, orders, or regulations issued pursuant to the Clear Air Act of 1970. Violations shall be reported to the Grantor and the Regional Office of the Environmental Protection Agency.

Grantor forthwith the original principal amount of the grant stated hereinabove, with interest at the rate of five percentum per annum from the date of the default. The provisions of this grant Agreement may be enforced by Grantor at its option and without regard to prior waivers by it of previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

21. That no member of Congress shall be admitted to any share or part of this grant or any benefit that may arise therefrom; but this provision shall not be construed to bar as a contractor under the grant a publicly held corporation whose ownership might include a member of Congress.

22. That all non-confidential information resulting from its activities shall be made available to the general public on an equal basis.

23. That the purpose and scope of work for which this grant is made shall not duplicate programs for which monies have been received, are committed, or are applied for from other sources, public and private.

It may be freely reprinted with the customary crediting of the source."

25. That the Grantee shall abide by the policies promulgated in OMB Circular A-102, Attachment O, which provides standards for use by Grantees in establishing procedures for the procurement of supplies, equipment, and other services with Federal grant funds.

26. To the following termination provisions:

(a) Termination for cause: The Grantor agency may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant. The Grantor agency shall promptly notify the Grantee in writing of the determination and the reasons for the termination, together with the effective date.

(b) Termination for convenience. The Grantor agency or Grantee may terminate grants in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The Grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Grantor agency shall allow full credit to the Grantee for the Federal share of the noncancelable obligations, properly incurred by the Grantee prior to termination.

Grantor agrees that it will:

1. Assist Grantee, within available appropriations, with such technical assistance as Grantor deems appropriate in planning the project and coordinating the plan with local official comprehensive plans and with any State or area plans for the area in which the project is located.

2. In its sole discretion, Grantor may at any time give any consent, deferment, subordination, release, satisfaction, or termination of any or all of Grantee's grant obligations, with or without valuable consideration, upon such terms and conditions as Grantor may determine to be (a) advisable to further the purposes of the grant or to protect Grantor's financial interest therein, and (b) consistent with both the statutory purposes of the grant and the limitations of the statutory authority under which it is made.
